

NEW DUCATO MY25 "FLEX FLOOR": A NEW WAY TO TRAVEL.

MEDIUM WHEELBASE: L2H2

WELCOME ON BOARD!

Super Combi was created to cope with the **new frontier of passenger transport** in terms of accessibility, consumption, ease of use of equipment. For these reasons, on the basis of the **Ducato EURO 6E**, interiors, systems, components and upholstery layout **have been completely revised**, getting the most **out of the most popular commercial vehicle ever** for transporting ambulatory and non-ambulatory staff in wheelchairs: **FIAT DUCATO**.

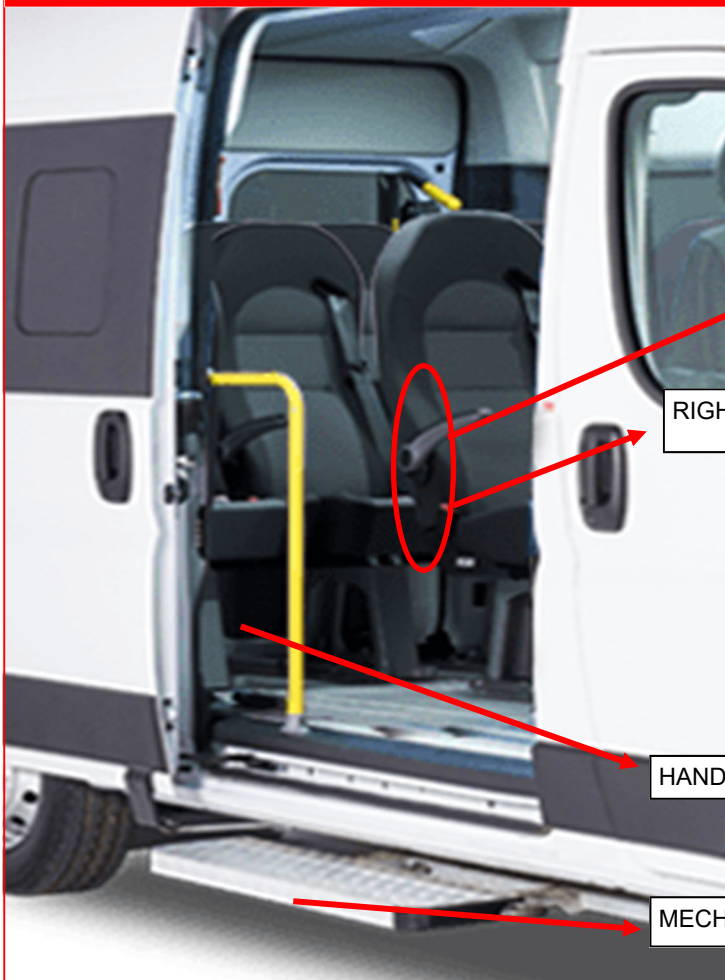

THE MAIN ADVANTAGES OF SUPER COMBI "FLEX FLOOR" CAN BE SUMMARIZED:

- New interior with more space for access to seats thanks to protrusion-free cladding
- Total soundproofing of the interior for greater driving comfort
- Increased brightness in the passenger compartment thanks to matching colours in the driver's cab
- Improved wheelchair anchorage areas and seat access thanks to specific structural cuts
- Maximum aesthetics and visual comfort of the installed components, approved by Fiat, washable and sanitizable
- **New heating and air conditioning systems**, combined with anti-contagion environmental systems
